I LIKE NETWORKING

I LIKE NETWORKING IS THE LEADING CAREER PLATFORM FOR UNDER-REPRESENTED GROUPS IN THE CREATIVE INDUSTRIES.

We set-off in 2020 as a response to the growing need of diversifying the industry.

Today our **community** is made up of **35k+ women and non-binary people** in the creative industries, focused on creating a better and more inclusive sector for all. Since 2020, we've nurtured **700+ mentees** and **upskilled 5000+ people**.

Isabel Sachs is the founder of I LIKE NETWORKING.

An entrepreneur with over 18 years of experience in arts, culture & entertainment, passionate about bringing diverse talent into the creative industry - from artists to arts managers, she created and sold an award-winning cultural agency, based in Brazil, producing over 50 events a year.

Isabel has worked on a variety of non-profits and culture organizations conceptualizing and producing branded experiences that engage core consumers, having worked with Converse, Red Bull, and Lollapalooza, amongst others.

“Isabel has such a natural ability to bring people together, creating clear outcomes whilst having fun at the same time. Turning the traditional notions of networking on its head, the workshop was space to build confidence and connect in a safe and engaging way.”

— Jolie Hockings, The Photographer's Gallery

“Isabel was the perfect person to deliver this event. Her energy and unique insights made the whole process incredibly fruitful, enjoyable, and easy. I would wholeheartedly recommend working with Isabel - she is a star and one to watch.”

— Kate Jones, Young People in the Arts

“Isabel is one of the best workshop leaders I've ever booked (and I've booked a lot!), so engaging and is full of energy - I can't recommend her enough. It's really hard to find effective digital presenters and she could give lessons on how to do it she's so good.”

— Jess Partridge, London In Stereo
