SPEAKERS' NETWORK

SPEAKER'S NETWORK

Take the hassle out of organising multiple industry leaders for your event.

With a vast community of professionals in our network, we can support your specific goals by providing your company and community with panels and workshops led by diverse speakers.

Get in touch with any of us and support our fight for a more inclusive, equitable, and diverse industry.

“Isabel has such a natural ability to bring people together, creating clear outcomes whilst having fun at the same time. Turning the traditional notions of networking on its head, the workshop was space to build confidence and connect in a safe and engaging way.”

— Jolie Hockings, The Photographer's Gallery

“Isabel was the perfect person to deliver this event. Her energy and unique insights made the whole process incredibly fruitful, enjoyable, and easy. I would wholeheartedly recommend working with Isabel - she is a star and one to watch.”

— Kate Jones, Young People in the Arts

“Isabel is one of the best workshop leaders I've ever booked (and I've booked a lot!), so engaging and is full of energy - I can't recommend her enough. It's really hard to find effective digital presenters and she could give lessons on how to do it she's so good.”

— Jess Partridge, London In Stereo
